

## Rehab Assist Guardianship Services

A Division of

Rehab Assist, Inc.

*Providing personalized services for the disabled and elderly*

Rehab Assist is a unique consulting company formed in 1994. Rehab Assist specializes in providing disability related / case management and guardianship services.

### *Who Uses Rehab Assist's Services?*

- Trust Officers
- Plaintiff / Defense Attorneys
- Probate Attorneys
- Insurance Carriers / Third Party Administrators
- Families
- Probate Courts

### *What are Guardian of the Person Services -*

This service monitors and oversees the individual's mental, physical and emotional status. This is achieved through onsite monitoring and advocacy for the client. Issues regarding appropriate residence, medical needs, educational needs and vocational placement, to name a few, can be addressed. Reports are made to family members and designated advocates on a regular basis. Nursing homes, rehab units, school environments and homebound clients are frequently visited to assure proper care. Rehab Assist professionals act as guardian and advocate to assure the highest quality of life for their clients.

### *Who are our Clients? -*

Our guardianship clients are all ages.

### *When Should Professional Guardianship Services be Considered? -*

Situations vary, but professional services are necessary when an individual is no longer capable of managing their own affairs or maintaining their health and safety. If there is no family member, relative or friend who is willing to assume that responsibility, **a guardian of the person** is needed.

### *Why Use Rehab Assist Professionals Guardianship Services? -*

Rehab Assist provides the highest quality guardianship services delivered by licensed social workers, nurses, therapists and case managers. Rehab Assist offers a highly personalized approach – frequently visiting their clients, monitoring their needs and maximizing their quality of life.

***Comprehensive Disability Assessments –***

These documents provide a thorough review of the disabled individual's status and services they will require.

***Annual Medical Budgets –***

Often submitted to the court, these documents assist the family, the disabled individual and the estate planning team to budget and plan for necessary medical and disability related expenditures.

***Educational Resource –***

**School staffings are frequently attended to assist the family in the special education process. Research for the most appropriate school district or special services for the child are provided.**

***OUR MISSION***

Our mission is to provide valuable information through consultations to disabled individuals, their families and advocates. Whether on a one time or ongoing basis, this information will contribute to improving the quality of their life. We commit not only to obtaining and creating valuable information, but dedicate ourselves to monitoring these needs and orchestrating the services necessary to achieve the highest quality of life for our clients.

Rehab Assist, Inc. is owned and operated by  
licensed clinicians and certified case managers.

Henry Brennan is a licensed speech pathologist and  
Thomas Kleinhenz a registered nurse.  
They have co-owned and operated Rehab Assist since 1994.

Rehab Assist serves clients on a local and national level.
